Hall

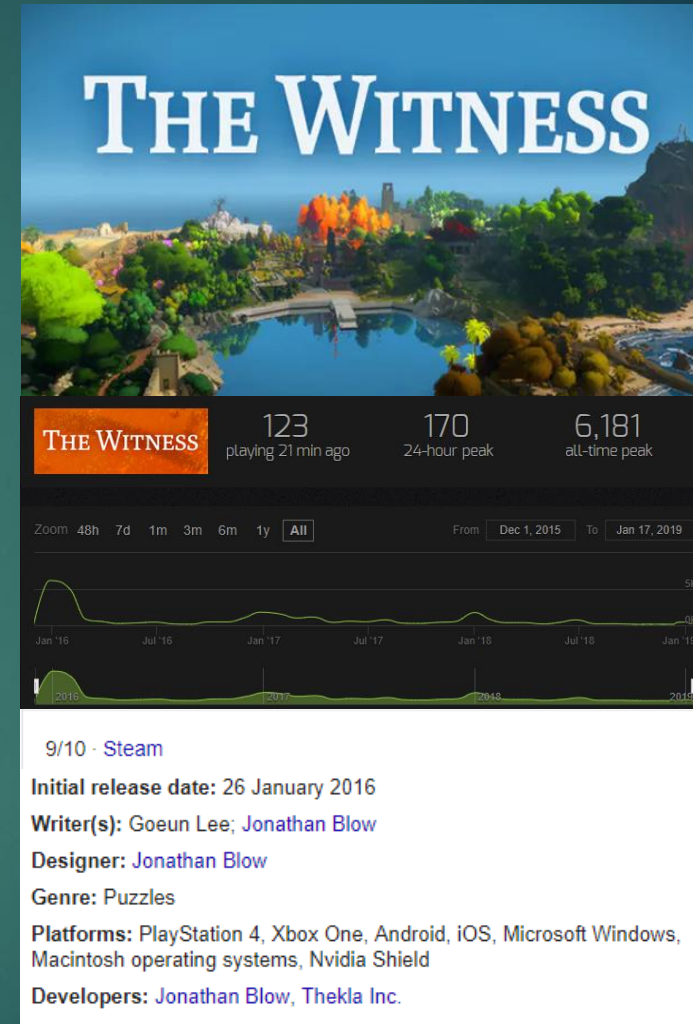

Castle Idea

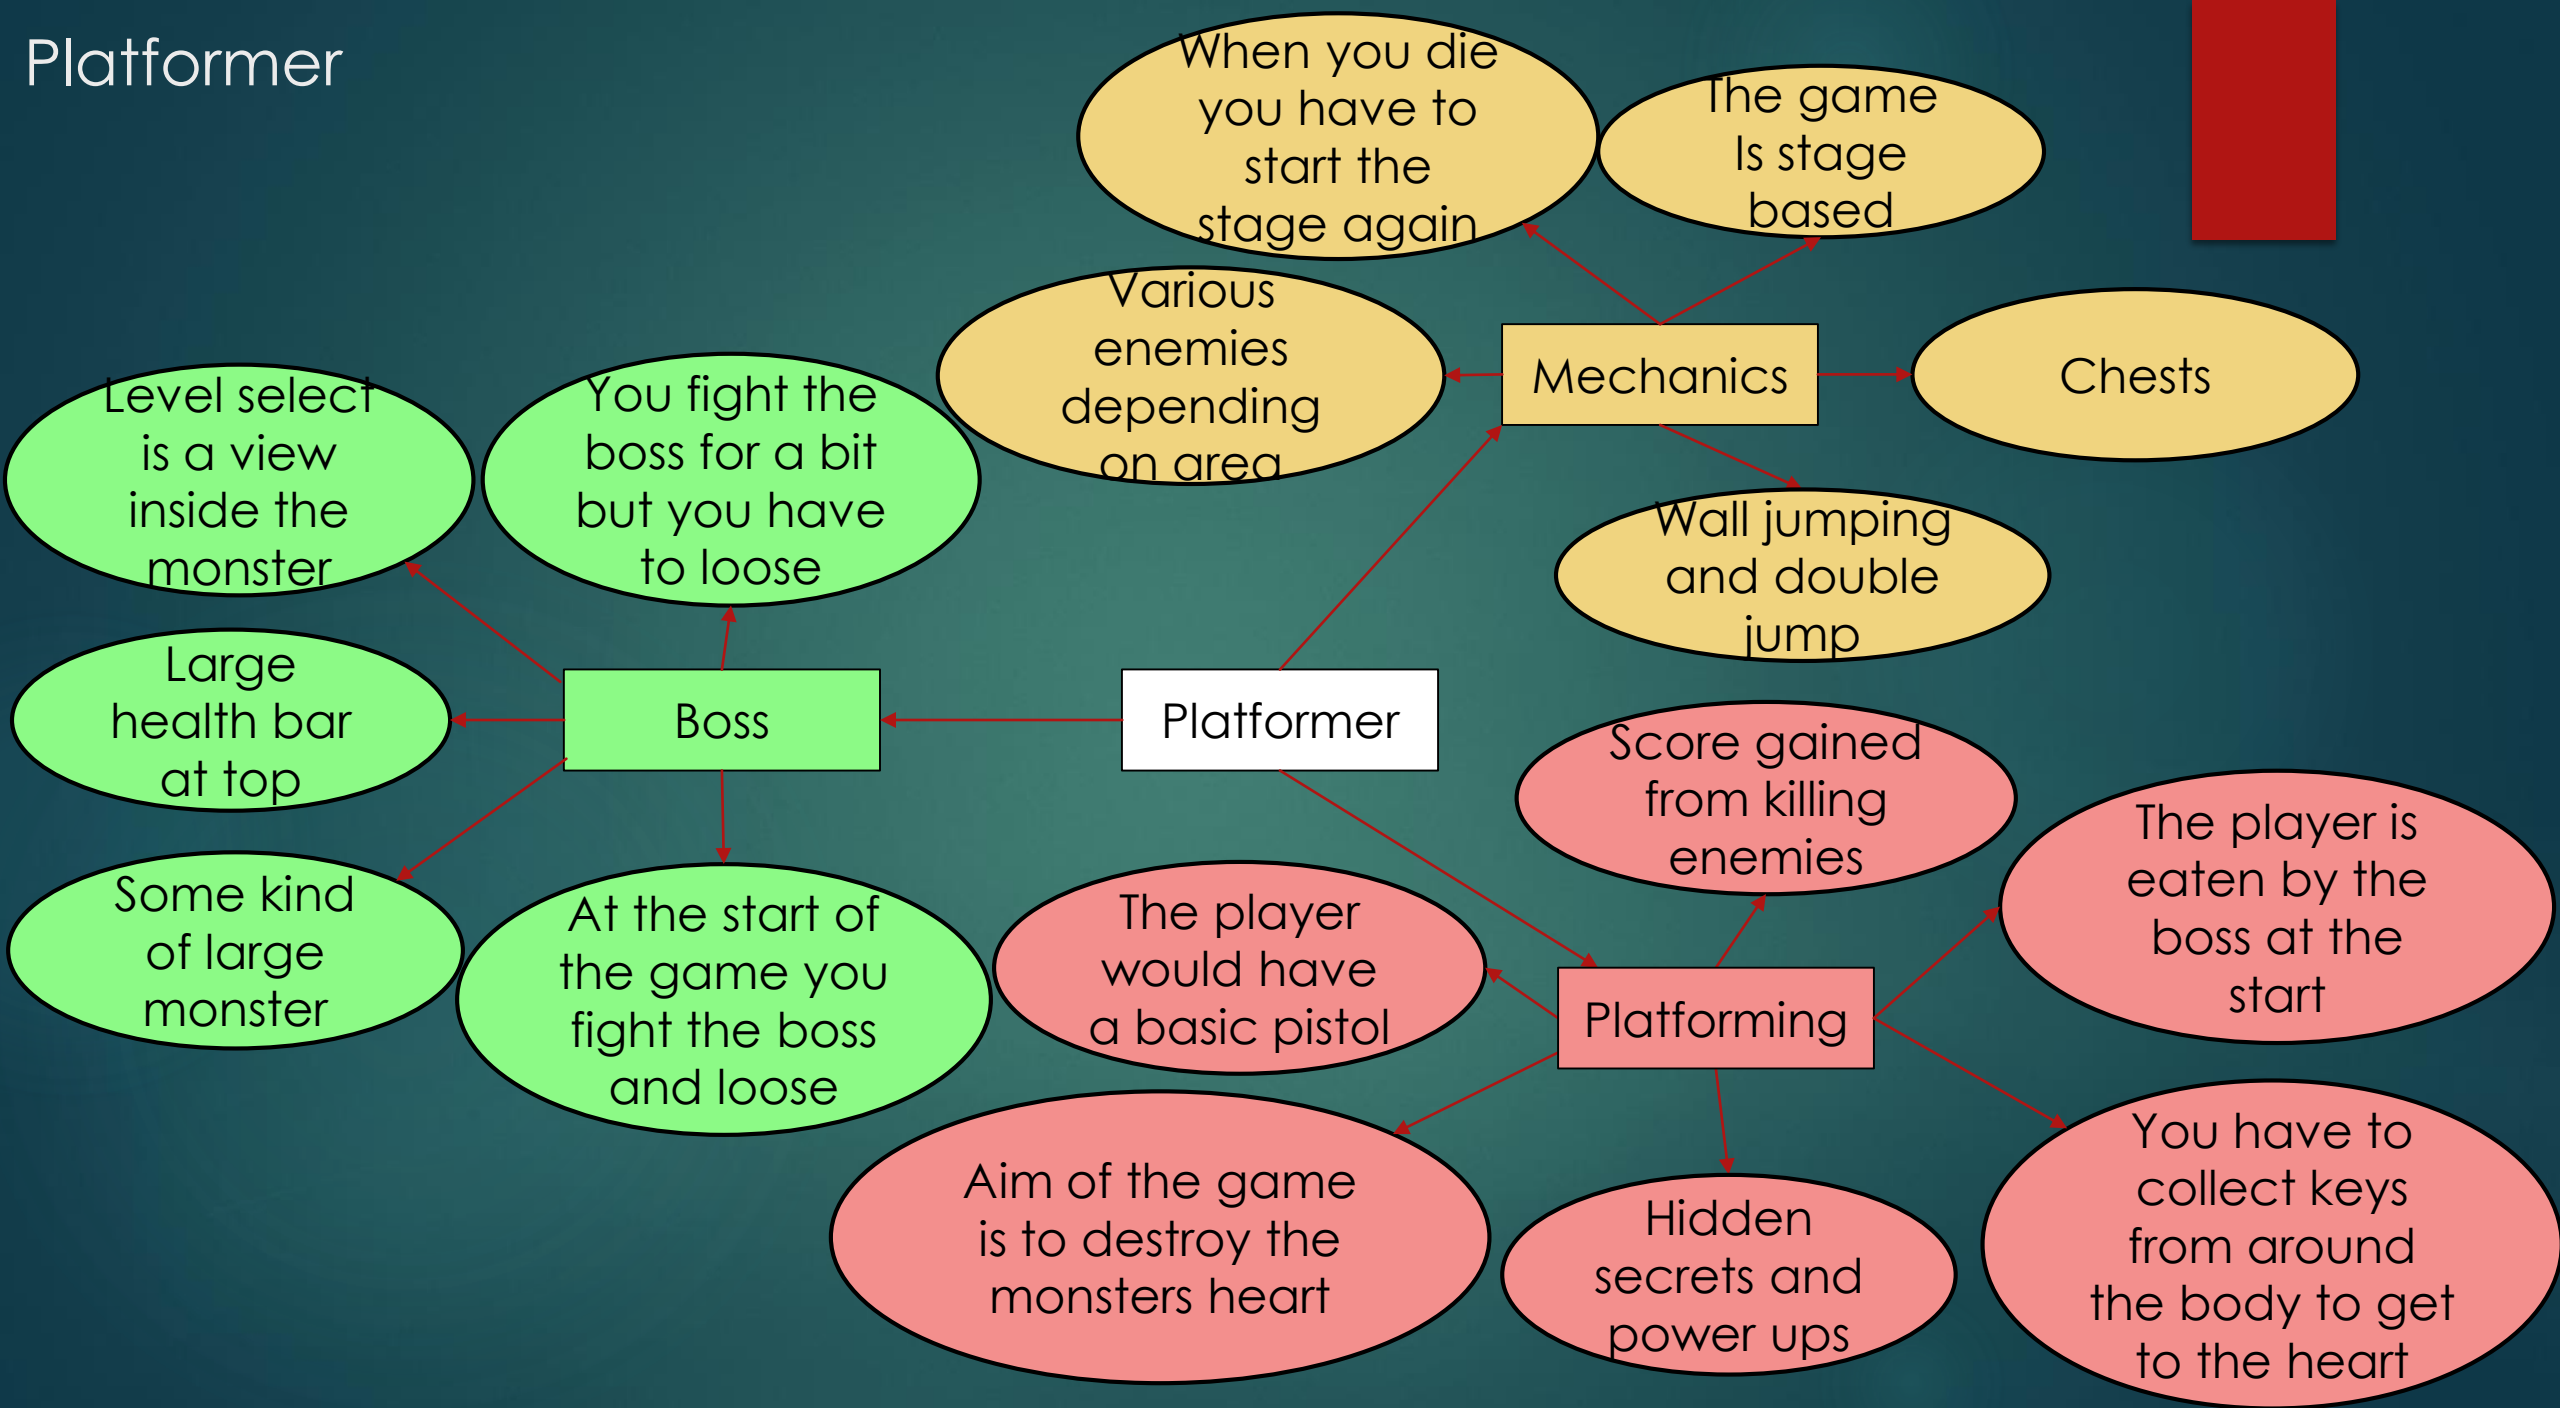

- ▶ Linear story telling game set in a medieval castle
- ▶ With small puzzles to progress through the each of the rooms
- ▶ Story based around everyone disappearing after a celebration
- ▶ Story told through notes and visuals
- ▶ It will end in some sort of lab with the player activating a machine
- ▶ There will be secrets that will give the player some more lore

Market research: Environment

Platformer

Platformer Idea

- ▶ Starts off with losing a boss fight
- ▶ You start off inside the stomach (The tutorial level)
- ▶ You have to collect keys from different parts of the bosses body to unlock its heart so you can kill it
- ▶ You can collect these different keys in any order
- ▶ After each level it takes you to a level select screen that's called "The nervous system" This is a level select screen where you can select which part of the monster you want to go to
- ▶ Different enemies depending on the area you are in
- ▶ Some chests that would give the player buffs

Platformers

Market research: Platformer

City builder

City Builder

- ▶ You have to build a village and defend against raiders
- ▶ Upgradable buildings and defences
- ▶ To build or upgrade anything you need builders
- ▶ Day/night cycle
- ▶ Set events on certain days
- ▶ Aim of the game is to survive as long as possible
- ▶ Set in medieval time

Final Idea: Platformer

- ▶ Plenty of tutorials to help me create it but the others don't have many
- ▶ I can create this within my time limit but with the others I might not be able to
- ▶ I can continue to add levels to it if I have extra time at the end
- ▶ I have some other work that I could use to help me when I create it
- ▶ They are quite popular according to the market research
